

# Worldwide Information for Licensed Investigators

## The Power of Search Technology

Worldwide Information offers a full line of CD and DVD software products using data direct from registries of motor vehicles to provide identity validation services that are unmatched in the industry. Worldwide Information's search software allows you to perform unlimited searches on secure, confidential software with no internet connectivity issues, no waiting and no per-search fees!

A few digits of a license plate or an old mailing address can now lead you to the location and description of a motor vehicle or to the current address of an individual.

## Investigators Can Close Cases Quicker

With flexible search capabilities, investigators may search with partial queries: by address, multiple vehicle makes, models, colors or year range to narrow the search focus quickly. This can save your company time, money and resources while creating new revenue through an increased volume of investigations.

One price. Unlimited searches. Confidential.
