

Worldwide Information, Inc.

Advanced Search Technology of Motor Vehicle and Driver's License Information

Worldwide Information

Features

Unlimited search capabilities – you tailor the search to what you want to find

Search for Drivers by: full or partial name, address, DOB, license number

Search for Vehicles by: full or partial plate number, color, make, model, city, year or VIN

Search for Owners by: full or partial name, address, DOB, license number

Search up to 12 cities at once - when you know the suspect lives in a given area

Search by date of birth range

Search by multiple makes, models or colors of a vehicle – the witness isn't sure if it was a blue or black Toyota or Acura

Search by vehicle year range

Search for company vehicles, including rental car companies

Search by more than one street at a time

Search by more than one registration type

Search by residential or mailing address

Identify all registered vehicles on a certain street or at a specific address

Disks are portable and can be used anywhere at anytime. No internet connection required

Benefits

One price – no per search fees

Close investigations quicker - saving your company or department time, money and resources

Create new revenue via an increased volume of business

Data is not purged. Create your own library of historical data, back to 1999, by keeping old CD's to track past addresses or vehicles

Disks are untraceable. All searches are confidential

Designed specifically for law enforcement, licensed investigators, security firms and towing companies

With Worldwide Information's database search solutions, incomplete data is often all you need to track down your subject or identify a motor vehicle. A few digits of a license plate or an old mailing address can now lead you to the location and description of a motor vehicle and or the current address of an individual.

Worldwide Information's motor vehicle software on CD or DVD contains all available registered cars and owners directly from the state Registry of Motor Vehicles. The product contains over 6,000,000 records; the exact number varies by state.
